Saturday, March 28, 2015, 10:00 AM**

Agenda

1. Overview of USDA Source Water Protection Program
2. Quonochontaug Geology and Hydrology
3. QEBWA & CBFDA Source Water Protection Area
4. Assessment of Threats to the Public Wells
5. Nitrate Levels and Relationship to Precipitation
6. Management Plan: What Can the Quonochontaug Community Do?

Atlantic States Rural Water & Wastewater Association is run by and for rural water and wastewater systems in Connecticut and Rhode Island. It is a private, non-profit organization that provides training classes for system personnel, an informational network for members, and in-field technical support that includes leak detection, process control, compliance, source water protection, budgeting, and collections.
