Section 218.23 Special use permits.

- A. A special use permit may be approved by the Board following a public hearing if, in the opinion of the Board, that evidence to the satisfaction of the following standards has been entered into the record of the proceedings,
- (1) The public convenience and welfare will be substantially served;
 - (2) It will not result in adverse impacts or create conditions that will be inimical to the public health, safety, morals and general welfare of the community;
 - (3) The requested special use permit will not alter the general character of the surrounding area or impair the intent or purpose of this Zoning Ordinance or the Comprehensive Plan upon which this Ordinance is based;
 - (4) That the granting of a special use permit will not pose a threat to drinking water supplies;
 - (5) That the use will not disrupt the neighborhood or the privacy of abutting landowners by excessive noise, light, glare or air pollutants;
 - (6) That the sewage and waste disposal into the ground and the surface water drainage from the proposed use will be adequately handled on site;
 - (7) That the traffic generated by the proposed use will not cause undue congestion or introduce a traffic hazard to the circulation patter of the area.

Section 218-24 Variances

- B. In granting a variance, the Board shall require that evidence to the satisfaction of the following standards be entered into the record of the proceedings;
- (1) That the hardship from which the applicant seeks relief is due to the unique characteristics of the subject land or structure and not to the general characteristics of the surrounding area; and is not due to a physical or economic disability of the applicant;
 - (2) That said hardship is not the result of any prior action of the applicant or owner and does not result primarily from the desire of the applicant to realize greater financial gain;
 - (3) That the granting of the requested variance will not alter the general character of the surrounding area or impair the intent or purpose of the Ordinance; and
 - (4) That the relief to be granted is the least relief necessary and not contrary to the public interest and welfare.

C. The Board shall, besides the above standards, require that evidence be entered into the record of the proceedings showing that:

- (1) In granting a use variance that the subject land or structure cannot yield any beneficial use if it is required to conform to the provisions of this Ordinance. Nonconforming use of the neighboring land or structures in the same district and permitted use of land or structures in an adjacent district shall not be considered in granting a use variance.
- (2) In granting a dimensional variance, that the hardship that will be suffered by the owner of the subject property if the dimensional variance is not granted shall amount to more than a mere inconvenience. That a use may be more profitable or that a structure may be more valuable after the relief is granted shall not be grounds for relief.

Section 218-22 Powers and duties

- I. In granting a variance, special use permit or in making any determination upon which it is required to pass, the Board and other enforcement officials as identified in this Ordinance may apply such special conditions that may be required to promote the intent and purpose of this Ordinance. Failure to abide by any special conditions attached shall constitute a zoning violation.

Special Use Permits and Variances shall expire twelve months from the date of the approval as specified in 218-23 and 218-24.

Complete copies of the Zoning Ordinance are available for review and/or purchase in the Zoning Office.
