

Ninigret Park Entrance, Roads and Signage Subcommittee
Minutes
11/9/16

1. Meeting called to order at 5:31pm, present were Cheryl Dowdell, Sunny Cummings, David Currier, Tim Quillen (6:30pm), Bonnie Van Slyke and from Bradford and Associates Sarah, Kristin and John.
2. The minutes of 9/19/16 were approved, moved by Mr. Currier, seconded by Ms. Cummings and all in favor.
3. Bradford and Associates presented draft plans of the entrance, and they walked us through their thought process for the different ideas on each. We will not be moving the power poles and the separate entrance for bikes will not be part of this project.

It was placed on one draft plan to be used at a future date for a springboard for discussion. The group talked through each concept and will digest and meet in the near future to discuss. Sarah mentioned that DOT will be approached at the proper time for a physical alteration permit on the land in the easement right of way. John reviewed the sign/monument designs proposed. He will flesh out some ball park numbers regarding the 3 different mediums presented.

4. The subcommittee will study the drawings and be ready to talk about the ideas presented hopefully next week. Then we can get back to Bradford with input as to what they move forward with to prepare 2 plans for presentation to the Commission.
5. The meeting was adjourned at 6:50 PM.
